

# Home page

This is the message board/  
whiteboard

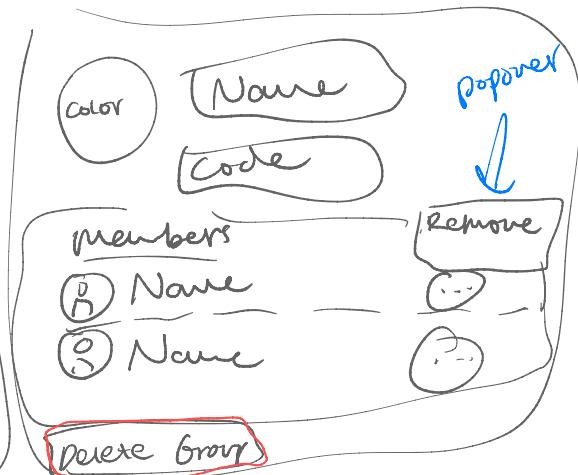

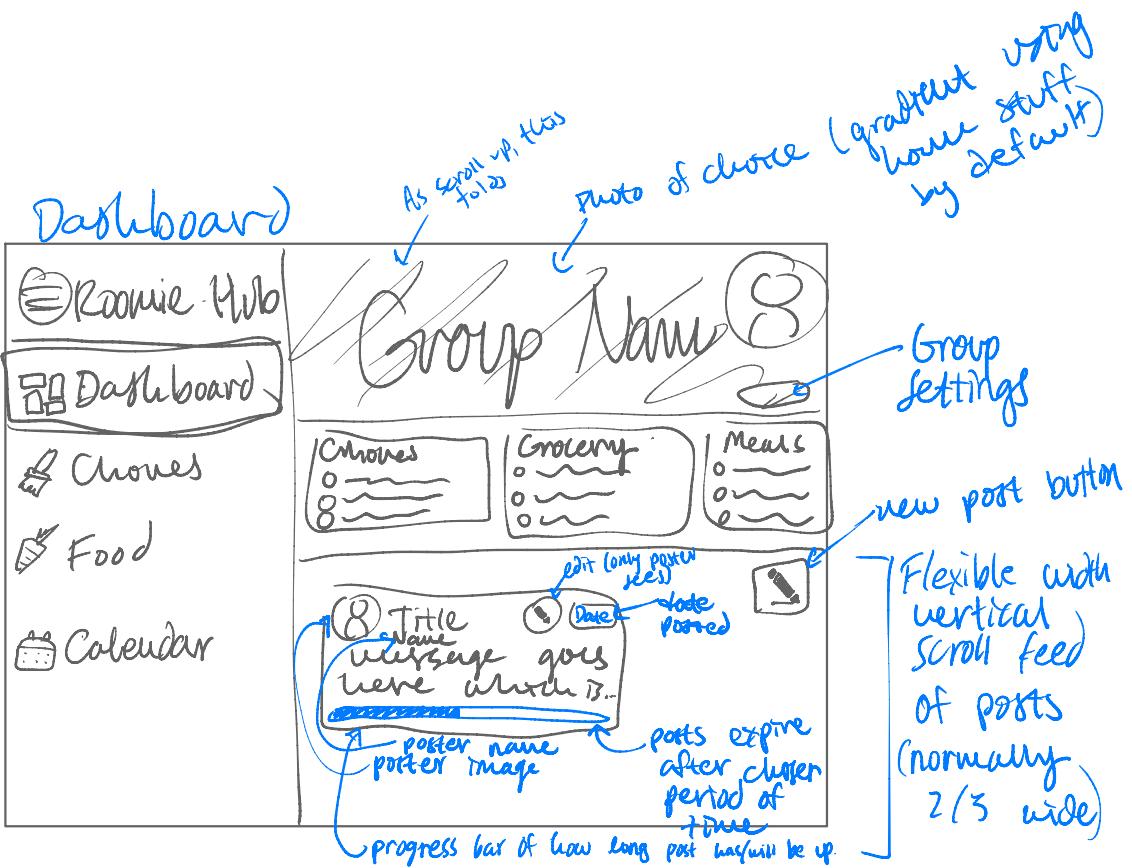

Folds sidebar to Icons only

## Edit Modal

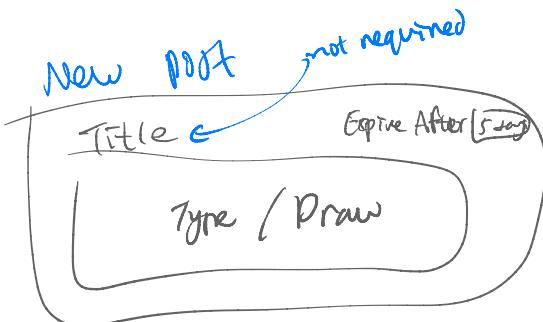

## Group Modal

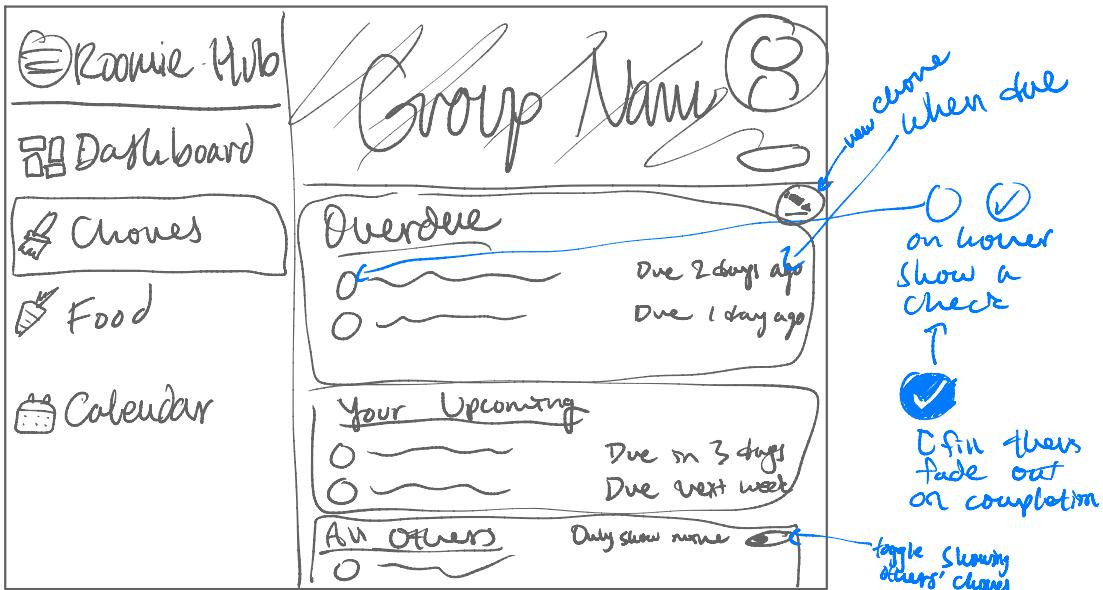

② Wanna fit in Calendar somewhere between two main sections? But then announcements de-prioritized :/

# Chores

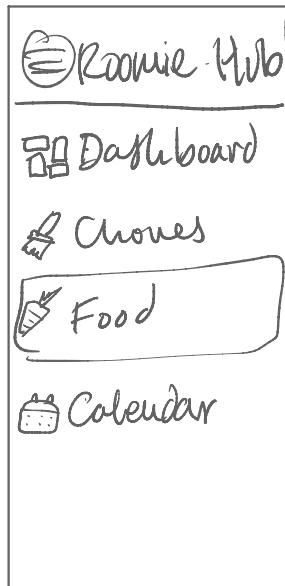

## Create/Edit Modal

The wireframe shows a rounded rectangular modal window. It contains fields for 'Title' (with a title icon), 'Description', 'Assign to:' (with a picker icon), 'Repetition:' (set to 'Weekly'), and 'Last completed:' (with a date picker icon). A blue arrow points from the 'Repetition:' field to a note: 'toggle showing users' chores'.
